Terms and Conditions for

procurement of repairing 250 numbers of different types of rollers for Coal Handling Plant of
Payra 1320MW TPP site of BCPCL.

Terms and Conditions contained herein shall be binding upon both the Procuring Entity and the Supplier for
the purpose of administration and management of this Contract.

1. Implementation and interpretation of these Terms and Conditions shall, in general, be under the purview of Procurement Procedures of BCPCL.
2. *The supply of Goods and related services shall be delivered within 15 days from the date of issuing purchase order in conformity with the Terms and Conditions.*
3. The Supplier shall be entitled to an extension of the Delivery Schedule if the Procuring Entity delays in receiving the Goods and related services or if Force Majeure situation occurs or for any other reasons acceptable to the Procuring Entity on justifiable grounds duly recorded.
4. All delivery under the Contract shall at all times be open to examination, inspection, measurements, testing, commissioning, and supervision of the Procuring Entity or his/her authorized representative.
5. The Procuring Entity shall check and verify the delivery made by the Supplier in conformity with the Technical Specifications and notify the Supplier of any Defects found.
6. If the Goods are found to be defective or otherwise not in accordance with the specifications, the Procuring Entity may reject the supplies by giving due notice to the Supplier, with reasons.
7. The Supplier shall be entirely responsible for payment of all taxes, duties, fees, and such other levies under the Applicable Law.
9. Notwithstanding any other practice, the payment shall be based on the actual delivery of goods on the basis of the quantity of each item of Goods in accordance with the Priced Schedule and Specifications. 100% payment shall be paid after successful delivery of the scheduled items or all repaired items and acceptance of the Delivery Challan.
10. The Supplier's rates or prices shall be inclusive of profit and overhead and, all kinds of taxes, duties, fees, levies, and other charges to be paid under the Applicable Law.
11. The total Contract Price is BDT. []
12. The Supplier shall remain liable to fulfil the obligations under the Applicable Law.
13. The Supplier shall keep the Procurement Entity harmless and indemnify from any claim, loss of property or life to himself/herself, his/her workmen or staff, any staff of the Procurement Entity or any third party while delivering the Goods and related services.
14. Any claim arising out of delivery of Goods and related services shall be settled by the Supplier at his/her own cost and responsibility.
15. Damage to the Goods during the Warranty Period shall be remedied by the Supplier at the Supplier's own cost, if the damage arises from the supply and installation by the Supplier.
16. No works under Extra Work Orders shall be permissible and, works under Variation Orders (except in case of Lump-sum basis) shall under no circumstances exceed fifty (50) percent of the Contract Price subject to threshold specified in the Procurement Procedures and Delegation of Financial Power-2019 of Bangladesh China Power Company Limited.

17. The Procuring Entity contracting shall amend the Contract incorporating required approved changes subsequently introduced to the original Terms and Conditions in line with the applicable law, where necessary.
18. Tenderer shall make reasonable provisions for the occupational safety and health of himself/herself, his/her workmen or staff, any staff of the Procurement Entity or any third party while delivering the physical services.
19. The Procuring Entity may, by written Notice sent to the Supplier, terminate the Contract in whole or in part at any time, if the Supplier:
 - a. fails to deliver Goods and related services as per Delivery Schedule and Specifications.
 - b. in the judgement of the Procuring Entity, has engaged in any corrupt, fraudulent, collusive or coercive practices in competing for or in delivery of goods and related services.
 - c. fails to perform any other obligation(s) under the Contract.
20. The Procuring Entity and the Supplier shall use their best efforts to settle amicably all possible disputes arising out of or in connection with this Contract or its interpretation.
21. Tenderer shall be subject to, and aware of provision on corruption, fraudulence, collusion and coercion with the applicable law.
22. Experienced tenderer of supplying the listed items shall be preferred.
23. The supplier shall remain responsible for transporting the rollers requiring repair from the site and delivering the repaired rollers back to the site. This includes arranging for the vehicle, manpower, loading and unloading, and any other logistics required.
24. Suppliers should visit the site first before start the work.
25. Major activities including but not limited to:
 - a. Roller Power Brush Cleaning: Complete removal of coal dust, scale, grease, and adhered contaminants using mechanical power brushing prior to inspection.
 - b. Shaft Run-Out & Alignment Check Shaft straightness and run-out measured using dial gauge to ensure compliance with conveyor roller tolerance limits before machining.
 - c. Roller Body Inspection & Repair: Visual and dimensional inspection of roller shell for wear, thinning, dents, and cracks. Body repair carried out by controlled welding and grinding to restore original profile.
 - d. Shaft Journal Machining: Precision machining of shaft bearing seating area to achieve correct diameter, surface finish, and concentricity.
 - e. Bearing Replacement (Both Sides): Replacement of bearings on both ends with original SKF make heavy-duty bearings (C3/C4 clearance as applicable) suitable for coal handling applications.
 - f. Advanced Sealing Arrangement: Installation of new high-performance special fiber seal combined with special metal circlip to prevent coal dust ingress, moisture entry, and grease leakage.
 - g. Lubrication & Assembly Control: Proper grease application using industrial-grade grease compatible with high dust and continuous operation conditions.
 - h. Anti-Corrosion Protection System: Thorough surface cleaning followed by application of anti-corrosion primer and industrial protective coating suitable for coal handling plant environment.
 - i. Free Rotation & Functional Check: Post-repair rotation check to ensure smooth operation, zero abnormal noise, and proper bearing seating.
